

Pigeon Racing Club Clocking Instructions

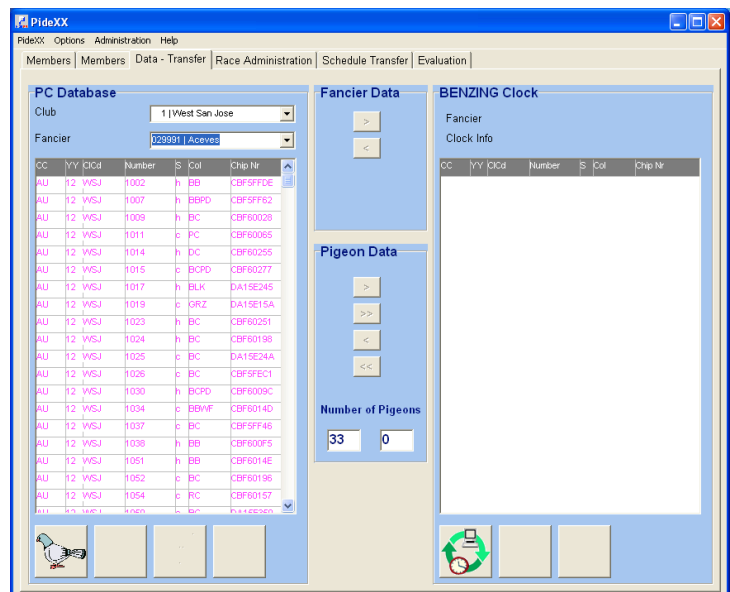

1. Clock Preparation (Before Season Starts)

a. All clocks must have the pigeon list and chips registered. To load the pigeons on the clock follow these instructions:

- a. Open the Pidexx program
 - i. Go to the MEMBERS Tab
 - ii. On the left hand side select the club(Club must have been created already)
 - iii. Once you have selected the member, click on the blue man on the right to create a new member. You will need to have the name, AU number, name of the clock for that member.

- iv. Adding pigeons for a flyer
 - a. Select Club and member from list
 - b. Pigeon list for that member will appear
 - c. To add more pigeons click on the button with the pigeon

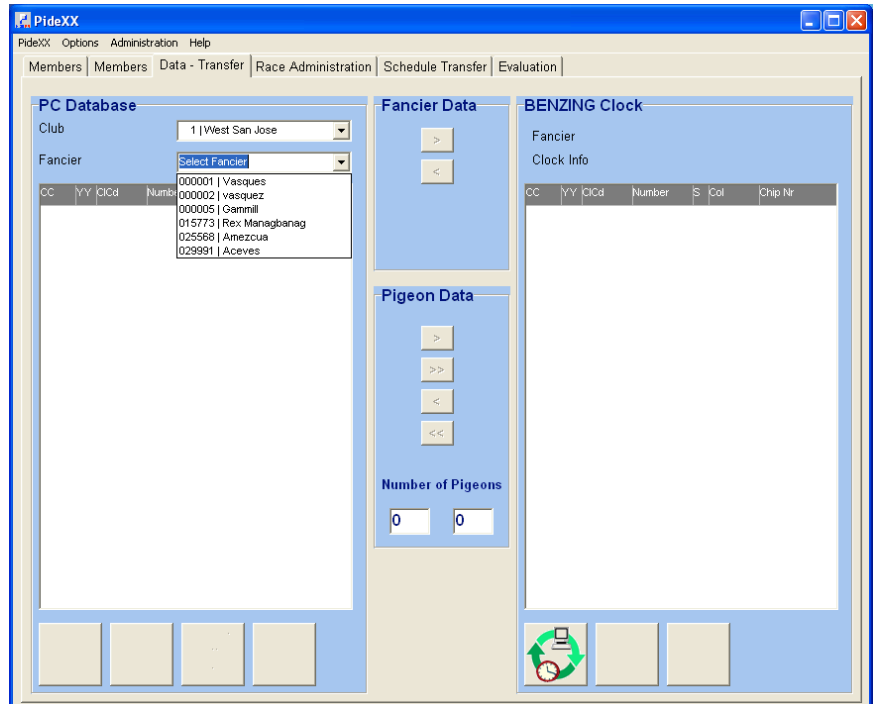

2. Loading Pigeons to the Clock (Before Season Starts)

a. Connect clock to club station, select PC Communication on Clock

Open the DATA TRANSFER Tab (to create and load pigeons to the clock)

Click on the Green Circle with a clock and PC image. This will load the contents of the clock to the PC.

- v. Select the Fancier from the club to copy to the computer by clicking on the < button on the Fancier Data Section
- vi. Copy the pigeons of the clock to the PC by clicking on the << button.
- vii. Now you should have the same pigeons on both sides of the screen (Left Side is the Computer and Right Side is the Clock)
- viii. Now you can Add, edit or delete pigeons on the Left Side window.
- ix. When you add a pigeon on the left side, the computer automatically copies it to the clock
- x. At the end, you should have the same number of pigeons on both sides.

BASKETING

3. Basketing (Make sure all pigeons and electronic bands have been loaded to clocks)

You do not need the computer to basket pigeons before the race.

- a. Connect the clock to the club station
- b. Select BASKETING the clock
- c. Club Station will ask for Authorization, Swipe the Yellow Basketing Card
- d. The clock will display the date and time. Make sure the clock date and time matches the date and time on the club station
- e. **Select Race 1 (Make sure you select the correct race number)**
- f. Scan each pigeon and verify the clock accepts the pigeon by seeing the band number and the number of pigeons
- g. Once all pigeons for race 1 have been loaded, Print the race list
- h. Select Race 2 and repeat the steps above for each flyer.

OPENING CLOCKS (EVALUATION)

4. Evaluation(Opening Clocks After a Race)

Preparing the Race. Before you can start the race results evaluation, you need to do the following things:

1. Preparation On WindSpeed before clocks are read

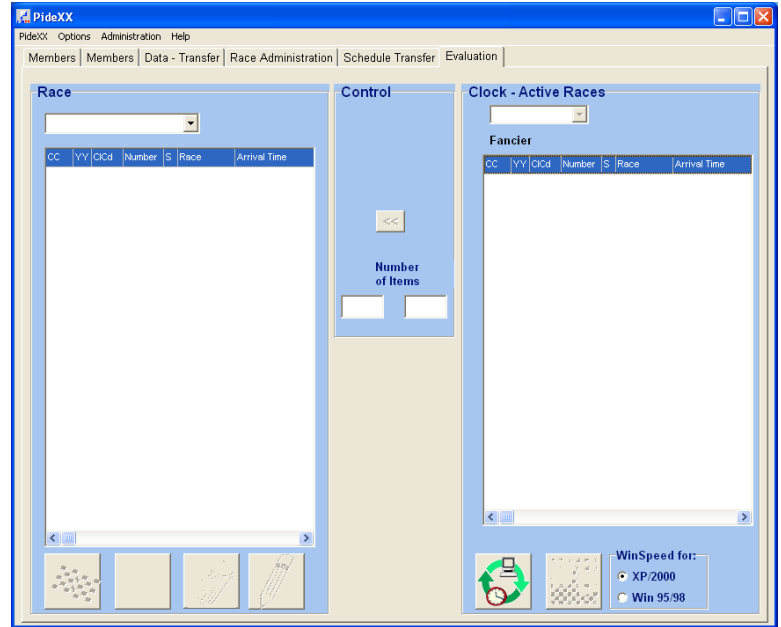

- a. Open WindSpeed and open the appropriate database (Old Birds 2013)
- b. Make sure all members have been created in WindSpeed by clicking on MASTER LISTS tab on top of the screen, and select LOFT LIST. All the information for each member has to be accurate.
- c. Create the race station by clicking on MASTER LISTS tab on top of the screen, and selecting STATION LIST. Enter the name of the station and coordinates for the station, then click the ADD button. You can also edit stations on this screen.
- d. Create the Race. You will need to create a race for each race flown for example A Race and B Race.
- e. To create a race by clicking on RACE DATA tab on top of the screen, and selecting EDIT/ADD a RACE.
- f. Enter the following Race Information:
 - i. Date
 - ii. Race Name (Example: Eureka A)
 - iii. Race number A or B
- g. Select the Station from the list on the right hand window
- h. Enter release time
- i. Weather for release and arrival
- j. If the race goes for more than one day you will need to enter sunset and sunrise times
- k. Click the ADD button to add the race

5. Printing Race Results (After the race).

- a. Connect the clock to the Club Station
- b. Select EVALUATION on the clock
- c. Clock will ask for authorization, swipe Green Card
- d. Verify clock time and date matches the club station
